

BEACH CHILDREN'S CENTER MORATWA – 2008

←The photo shows some of the children with their mothers And two co-workers of the UCF

← Some of the children along with the UCF co workers

We started our Beach Children's center work on the 3rd of January for the year 2008. 22 children were selected. These are children from the Beach community in Moratuwa. Some children are coming from the refugee camps in Moratuwa. Still there are families living in the camps after being affected by the tsunami. For this year we are planning to give these children, food, clothing and medicine on a daily basis. Many of these children come to the center in the morning even without breakfast. Most of them are living in wooden huts and many of them do not have food or drink. So we at the UCF are trying to provide some of the basic needs of the children who have been selected to this center.
