

BEACH CHILDREN'S CENTER MORATUWA – JUNE 2007

These families are living in the Beach area in Moratuwa. Most of them are living in Shanties. They have no proper income for their living. Most of them do not have their own place to live and are living in temporary sheds in the beach side. No proper drinking water, toilet facilities and even electricity. Most of their husbands are addicted to drugs and alcohol. So we have taken one child from each family and provide them food, clothing, education and books from time to time. On each child we are spending approx. US\$ 20/= per month. We have 25 children and it comes to around US\$ 500/= We provide morning breakfast, lunch and tea on a daily basis. We will be thankful for your encouragement and support to the UCF so that we can continue to help these children providing their basic needs.
