Testimonials:

“God is faithful and is always present. We really ought to try harder to acknowledge Him. We often underestimate His power and compassion.”

“It [this trip] has made me want to connect with God on an even deeper level than before.”

“God has changed my view on how He is working through the Church; before this trip I had a somewhat cynical view of how God was working through the Church. I came into this trip expecting to give of myself to the people and the ministry, but I came out getting much more from God.”

“[I have] a renewed sense of God’s grace in what Jesus did on the cross.”

“[One thing I will do differently is] try to seek out God in those moments that are seemingly mundane.”
