

Greenhouse Report

Nov 2006

Dear friends!
We are a young family living in the village. We are so very thankful that you heard about our need and responded. We used the money (\$2000) to help our business. We bought a car, seeds and plastic covers. This winter we will prepare the green house so that in the spring we will be able to work with bigger possibilities. In the winter we will grow the seedling and in the spring we will sell some and also grow vegetables from the rest and bring it to the market place to sell. We are planning to help others in need. Once more, thank you very much. May God bless you,
Ura, Natasha
