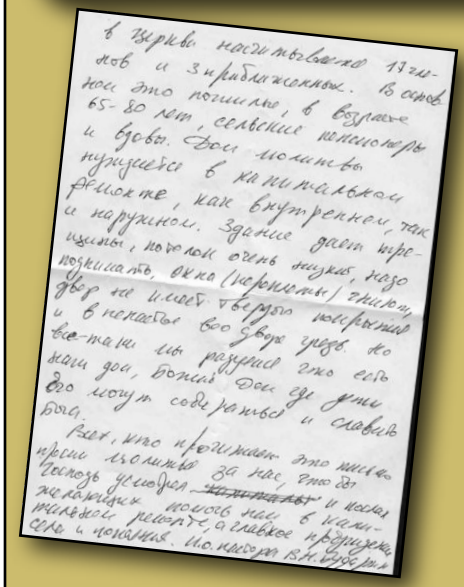
# Ukraine Update

Nov 2006



In Feb, 2001, a little group of 3 people in the Chklovo village was organized for a Bible study. God blessed it and it started to grow. In 2002 with help from the 'Revival' mission, a little, old mud house was purchased and we rejoiced. AWe fixed it up as much as we could, and in May of that year we had our first meeting there. In Nov. the church was registered.

At this moment the church has 17 members, mostly widows and retired people aged 65-80. The building needs renovations inside and out. The walls have been cracking and the wood in the windows has been rotting. The yard is not paved and is very muddy in the rainy season. Even with all of this we are very glad to have out own place to come and worship. For those that will read this letter, we would like you to pray for us, that God will provide for us in finishing the building. The most important part though is that the people of this village would come to know God.

Pastor of the Budarin Church

This is the church from the outside. The green fence was put up this summer. Thank you so much for your help.

Believers from Chkalovo after the service. They are very thankful for the financial help that provided heating. Now it is warm and comfy in the church. Everyone is happy. Thank you so much for your help.

This is the new boiler in the Chkalovo Church.

This is the kitchen.
The windows have been changed already, the walls have to be mudded and the floors installed.
