

## Ukraine Update

Nov 2006

This year the price of hydro and utilities increased a lot. Thank you for the money you left for helping out with utilities and coal. We were able to help quite a few families already (26 as of today).

This is the Shwedko family. There are 5 children in their family. The father is an invalid, unable to work. They are very thankful for the help.

This is the Ditchko family. Lubov, the mother, is a director of Sunday School, raising 5 children of her own. Their father is not a Christian. They all thank you so much for the help and ask you to pray for their father.

Roshko Vera is very thankful that God heard her prayer and answered it through you, brothers and sisters from Canada. She lives all by herself right now. She's been an orphan and then a widow for a long time. She had a great need for purchasing medications as she's been sick a lot lately. She also needed to purchase coal to have her house warm and to be able to cook. Thanks for answering her prayers.

God bless you!
